Description:

We offer you a studio 250 meters from the sea in the Royal Palm complex. The interior of the apartment is designed in monochrome. The windows and balcony overlook the interior and the pool. All furniture and appliances remain for the new owners. On the well-groomed green territory of the complex there are 2 swimming pools, a playground and a minibar. The territory is guarded, there is enough parking space nearby.

All the necessary infrastructure is located nearby, at a distance of 300 meters - the Pulse fitness center, where you can do sports all year round with a subscription or relax in its SPA area. There is a Jacuzzi, Turkish steam room, sauna and salt room.

The city of Sveti Vlas belongs to the Burgas region and is part of the municipality of Nessebar. The resort received the status of a city in 2006. The creation of the resort area began here after the opening of a sanatorium for the treatment of lung diseases. The popularity of the resort is explained by a rare combination of therapeutic factors in one place: the purest mountain air, pine forest and sea. The advantages of the resort include the absence of industrial enterprises that would pollute the air; the duration of sunny days per year, which reaches almost 280 days and a relatively mild winter.
